** With Delta Dental's incentive plans, the percentage of coverage increases from the base benefit level by 10% annually (up to the stated maximum) so long as the eligible patient continues to utilize the program by being treated by a dentist on an annual basis. In the event that the eligible patient is not treated by a dentist during a particular annual period, the percentage of coverage will decrease in 10% increments each annual period in which treatment is not rendered, but never to less than the base benefit level.
