Joseph G. Majka,
J.D.
*Superintendent of
Schools*

Dear Parents/Guardians:

Richard Carlson
Director of Facilities

The Asbestos-in School Rule, mandated under the authority of the Asbestos hazard Emergency Response Act (AHERA) of October 1987, requires that local education agencies have all buildings inspected for asbestos containing materials. Pursuant to this rule, the Matawan-Aberdeen Regional Board of Education retained firm Dames & Moore to inspect, assess, and recommend response actions as a part of a comprehensive management plan for the District.

The New Jersey licensed asbestos safety control monitoring firm, Environmental Connection, Inc., has been retained to design, implement, and monitor response actions and to oversee District compliance with the rule.

Please be advised that a copy of the management plan is on file in the Main Office of each school and is available for public review for public review between the hours of 9:00am and 3:00pm, Monday through Friday.

Sincerely,

A handwritten signature in black ink, appearing to be 'RC', written over a horizontal line.

Richard Carlson
Director of Facilities
Asbestos of Program Manager
